Bombardier Signs \$241 Million USD Contract to Supply, Install, Operate and Maintain an *INNOVIA* Monorail System in Riyadh, Kingdom of Saudi Arabia

Bombardier wins the first contract in the Kingdom of Saudi Arabia for its next generation INNOVIA Monorail 300 fully automated transit system

Berlin, May 31, 2010 – Bombardier Transportation has signed a contract with **Saudi Oger Limited., a leading Saudi Arabian construction company**, for the supply, installation, operation and maintenance of a 3.6-km (2.2-mi.) **BOMBARDIER INNOVIA** Monorail 300 system for the King Abdullah Financial District, the new financial and business centre under development in Riyadh, Kingdom of Saudi Arabia.

Saudi Oger Limited, as the contractor responsible for the full turnkey construction of the new Monorail system, was awarded the contract by the Rayadah Investment Company, the investment vehicle of the Public Pension Agency of the government of the Kingdom of Saudi Arabia on April 14, 2010.

Bombardier, as subcontractor to Saudi Oger, will design and supply all of the system-wide Electrical and Mechanical (E&M) elements for the six-station monorail system, including six *INNOVIA* Monorail 300 trains (12 cars) with *BOMBARDIER CITYFLO* 650 automatic train control technology for driverless operation as well as providing project management, systems engineering and integration, testing and commissioning. Engineering and design for the Monorail vehicles will be centered at Bombardier's site in Kingston, Canada, and manufacturing of the 12 cars will be carried out by Bombardier in Pittsburgh, USA. Together with Saudi Oger, Bombardier will also provide its branded *INNOVIA* O&M operation and maintenance services for the system for an initial contractual period of 10 years. The total value of Bombardier's contract is \$241 million US (195 million euros). Completion of the 3.6-km (2.2-mi.) *INNOVIA* Monorail system is scheduled in 2012, with operation and maintenance services to commence at the start of revenue service.

Commenting on the announcement, André Navarri, President and COO of Bombardier Transportation, said: “As the global leader in the supply and operation of turnkey transit systems, we are exceptionally proud to secure our first major project in the Kingdom of Saudi Arabia and to be associated with the prestigious King Abdullah Financial District. Our next generation *INNOVIA* Monorail 300 system combines service-proven driverless technology with the latest in wide-bodied, lightweight, aerodynamically styled monorail trains. They provide superior value and performance for demanding and sophisticated users. The long-term nature of our Operation and Maintenance contract further underlines our commitment to building Local Roots in the Kingdom of Saudi Arabia and with other countries in the Gulf Cooperation Council.”

About Systems Division

Bombardier Transportation’s Systems Division has delivered 60 transit systems in 16 countries around the globe; 32 of which are operating in urban applications and 22 in world leading airports. The Division’s range of solutions includes the driverless *INNOVIA* family of APM (automated people mover), ART (advanced rapid transit) and Monorail systems, as well as light rail, metro and intercity systems. The Division also has more than 35 years of experience in providing comprehensive operation and maintenance services.
